The finacial and spiritual statistics report of St. Joseph's church was read Sunday by Rev. John E. Clark, pastor. The receipts were the largest since the parish was divided, 17 years ago. The deficit of the year 1919 has been a red out during the past year and a balance of \$1,679 remains. The report of finances follows:

Follows:
Receipts—Ordinary revenue, \$3,897;
sxtraordinary revenue, \$13,770; diocesan
collections, \$1,087; demetery revenue,
\$3,395; borrowed money, \$9,000; total,

Expenditures Salaries of priests, sex-Expenditures Salaries of priests, sexton, laborers, organit, teachers, maintenance of school, church, rectory, water, electricity, insurance, church supplies, etc., \$20,039; cemetery, \$11,109; repairs on building, \$3,344; total, \$24,322.

The actual revenue for 1920 was \$27,-961, which is \$4,526 greater than for 1919 and \$9,057 more than in 1918. Father Clark also reporte dthat all church property was in excellent shape, so expenses in that direction would be small during the present year. One of the

penses in that direction would be small during the present year. One of the largest items of expense was the building of the vauit at St. Joseph's cemetery, this requiring an outlay of \$\$,700. Conditions at St. Joseph's parochial school means that something must be done during the present year, the number of children at-tending school at present taxing the

building to capacity. More rooms must be prepared for new pupils.

In his spiritual statistics report Father Clark said that the parish now numbered about 4,000 souls. During the past year there were 129 births; 39 marriages and 58 deaths. Total burials in the church remetery was 100

remetery was 105.

Father Clark thanked his people for their assistance during the past year.

Rev. Father Clark has been pastor of St. Joseph's church for the past two years, coming to this city after the death of Rev. F. T. Bannos, Oct. 14, 1918.

One of the Reasons Why American Cooking is Becoming Better-More Delicious—Easier to Digest

New Methods of Cooking Not Only Better But More Economical

IN the "good old days" we talk about so sentimentally—but which few of us would ever want to go back to everyone used a lot of grease and lard for their cooking. That's one reason Americans formerly had the reputation of being the most dyspeptic nation on earth.

There has been a great change in this condition. Many million families in America have abandoned old-fashioned cooking methods.

They are now using vegetable oil for all frying, sauteing and baking, and for shortening biscuits, pie crusts, and other delicious foods.

And it is interesting to know that Mazola has the greatest sale of any brand of vegetable oil.

And food cooked with Mazola tastes better. Steaks, chops and all fried foods are crusted over almost instantly. The flavor and all the rich nourishing juices are kept in.

Women of Refinement Welcome Modern Cooking Methods

Women of refinement everywhere appreciate the fact that there isn't any smoke or odor of cooking with Mazola. The reason is Mazola can be heated so hot before it begins to burn-not like animal fats and ordinary cooking oils.

Being an oil, Mazola mixes more readily than do the fats generally

used for shortening, and so saves time and labor.

There is no waste to Mazola. You do not discard it-even after frying fish or onions. Just strain the oil and use it over and over againeven for shortening and pie making.

It is interesting to know that some of the finest French pastry baked today is made with Mazola. It gives a crisp richness to pastry that is not obtainable with any other fat.
